

Health & Safety and Environmental Policy

Flex P. Films (Egypt) S.A.E company is pioneer in the manufacture and supply of transparent, coloured, metalized & high barrier bi-axially oriented polypropylene (BOPP), Cast polypropylene (CPP), bi-axially oriented Polyethylene terephthalate (BOPET) and Specialty coated films which are used to manufacture packaging materials and labels to pack food and non-food products.. We are committed to the principles and requirements of Health, Safety and Environment management systems. We conduct our business in a manner that protects the environment and provides for the safety and health of our employees, contractors, customers and the public

We will-

- Ensure legal compliance of our processes and products toward the requirements of laws and regulations related to health, safety and environmental issues.
- Maintain a risk-based management system that is designed to ensure compliance with applicable legal and other requirements and promote continual performance improvement
- Conduct our business with a goal of zero injuries and accidents.
- Practice pollution prevention and optimize resource use across all stages of the product life cycle
- Communicate openly with interested parties relevant health, safety and environmental issues.
- Establish, implement and maintain processes for participation in the development, planning, implementation, evaluation and actions for improvement of the OH&S and environment management system by employee's at all applicable levels and functions.
- Ensure active participation of employees using consultation and the identification and removal of obstacles or barriers to participation.
- Provide a framework for setting and achievement of Environment and OH&S objectives.
- This policy is available to all interested parties, as appropriate, either on company website or hard copy
