**STORAGE & HANDLING**

FLEXMETPROTECT™ need to be stocked well packed in its original packing inside a closed warehouse maintained at low relative humidity (50% or less) conditions. The packing should be open when the material is intended for use. Metallized film should not be exposed to direct sunlight and the sources of humidity. It is recommended to store below 35°C in dry place. FLEXMETPROTECT™ if stored in recommended condition is suitable for use within 45 days from date of manufacturing.

**FOOD CONTACT**

FLEXMETPROTECT™ complies with EC and FDA regulations. Specific document and MSDS are available on request.

**DISCLAIMER**

It is the responsibility of our customer to determine that their use of our product(s) is safe, lawful, and technically suitable in their intended applications. The Values given in the technical data sheet represent typical values based on the best of our knowledge as on date when the data was compiled. It is offered solely to provide possible suggestions for your own experimentation and not as a guarantee for the material supplied. The user is solely responsible for the end use of the product and needs to perform their own tests to confirm the product suitability/compatibility in all respects. Flex gives no warranty or accept liability for any loss and fitness of the product for any specific purpose. Flex reserves the right to change the technical data sheet at any time for enhancing the quality of the products without prior information.
